UNCANNY X-MEN

X-MEN
DISASSEMBLED
PART

delgado

They were born mutants... possessing powers of a genetic origin that made them outcasts of society. But one man—Professor Charles Xavier—brought them together to learn to use their unique gifts in the service of a world that hates and fears them... They are Children of the Atom...

UNCANNY X-MEN

DISASSEMBLED PART 3

After a series of subtle, unexplained natural phenomena, dinosaurs attacked rural Kansas. A team of X-Men consisting of Jean Grey, Northstar, Iceman, Bishop and X-23 was dispensed to contain them.

Eleven hundred miles away in Montana, similar to an incident at New York City Hall, millions of Multiple Men with new and different power sets have swarmed. A team of X-Men consisting of Storm, Psylocke, Jubilee, Polaris, Cannonball and Nightcrawler responded.

Meanwhile, in the midst of agitated protesters, Legion (a powerful mutant with multiple personalities and a habitually loose grip on reality) arrived at the Xavier Institute claiming stability and a renewed purpose: to save the world!
